

Abubakr Elmallah abubakr Elmallah.com

18-year-old, 5.13 GPA IB Diploma Senior seeking opportunities to apply my skills in computer science and leadership in a challenging and collaborative environment.

WORK EXPERIENCE

South Orange County Tennis Academy, Coto De Caza *Tennis Court Supervisor*

2020 - 2021 School Year (Grade 9)

I dedicated every weekend to overseeing the courts and making sure that players were following the rules. I ensured that the courts were used responsibly and maintained in good condition. This experience allowed me to develop significant responsibility, vigilance, and community service skills from a young age.

STEM Irvine Academy, Muslim Village at ICOI *iOS App Development Teacher*

2024 School Year (Grade 12)

Initially, STEM Irvine focused solely on robotics but recognizing the opportunity for expansion, I proposed an iOS App Development course, which led to an expansion of STEM Irvine's curriculum beyond its initial offerings. As the teacher of the course, I created a course that introduced young students to iOS app development, culminating in a project where students created a Quran app. This initiative laid the groundwork for future STEM courses, establishing me as a pivotal figure in the early development of this educational venture. At 17 years of age, I became a central figure of the STEM Academy and the Muslim Village, becoming the youngest teacher in the academy. For more details, visit the STEM Irvine website: <https://www.stemirvine.com/service-page/ios-app-development-level-1>

COMMUNITY VOLUNTEER SERVICE

Islamic Center of Irvine

2020 - 2024 Years
