EDUCATION

University of California, Irvine

Irvine, CA

Bachelor of Science – Computer Science (3.90 GPA)

Expected June 2028

- **Relevant Coursework:** Data Structures & Algorithms, Software Engineering, Data Management (SQL), Artificial Intelligence, Information Retrieval, Object-Oriented Programming, Discrete Mathematics
- **Awards:** Apple Swift Student Challenge Winner (1 of 350 worldwide), Congressional App Challenge Winner

WORK EXPERIENCE

Lead Mobile Developer

March 2025 – Present

UCI Student Center & Event Services | studentcenter.uci.edu

Irvine, CA

- Reach **100K+** installs and **3.2M+** lifetime sessions across three production apps I own and ship (**UCI Now**, **ZOTFinder**, **UCI Esports**).
- Launched UCI Esports 1.0 as **sole developer**, integrating third-party **REST APIs** (ggLeap reservations, Google Calendar feeds), **single sign-on**, and backend profile sync.
- Lead a **4+ person Android team**, running hiring and technical interviews and code review, and own the **AWS** infrastructure and **Python** backends behind the department's apps.
- Cut load times **40%** rewriting two legacy apps onto a modern framework (**UIKit** to **SwiftUI**) with **async/await structured concurrency** and client-side caching.
- Cut crashes **85%** (10.4K to under 1.5K/month) refactoring a decade-old codebase, adding structured error handling, and maintaining **20+ dependencies** (Google Maps, Firebase).

Lead Software Developer

February 2026 – Present

ICS Student Council (ICSSC) | studentcouncil.ics.uci.edu

Irvine, CA

- Lead a **12-person engineering team** on **Agile** two-week sprints building **PeterPlate**, ICSSC's open-source campus dining platform, **live in production** on web and iOS.
- Built a type-safe **web frontend** with **React (Next.js)**, **TypeScript**, **Zustand**, and **Tailwind CSS**, owning code review and onboarding for **8 new developers**.
- Shipped a **scalable** serverless **REST/RPC** backend pairing **tRPC** with **Drizzle ORM** over a 13-table **PostgreSQL** schema, deployed to **AWS Lambda** and **RDS** via **GitHub Actions** CI/CD with **Docker** tests.

Software Development Instructor

February 2024 – February 2026

STEM Heroes Academy | stemirvine.com

Irvine, CA

- Launched the academy's first **App Development** course as its **youngest instructor** at 17, teaching 30+ students who each shipped a working app.

PROGRAMMING PROJECTS

Star Wars Discord Bots | Python, C++20, Linux 500+ Servers

[GitHub](#) | 2024 – 2025

- Grew **Sabacc Droid** (Python, discord.py) and **Aurebesh Droid** (C++20, D++, CMake) to **500+ Discord servers** with an event-driven, concurrent 8-player multiplayer engine spanning 4 rule variants.
- Sustained **99.9% uptime** deploying both services to **Linux** containers with automated **GitHub Actions** pipelines.

Aurebesh Translator App Suite | Swift, Computer Vision Top 10 Entertainment

[GitHub](#) | 2023

- Published my first app at 17, earning **\$1K+** from **25K+** installs at **99.9% crash-free**, and decoded photographed glyphs offline with on-device **computer vision** template-matching 14 bundled fonts.

Al-Islam App Suite | Swift Congressional & Swift Student Challenge Winner

[GitHub](#) | 2023

- Built **three open-source apps** (**Al-Islam**, **Al-Quran**, **Al-Adhan**) serving **15K+** users across **55K+** sessions at **99.8% crash-free**.
- Cut load times **50%** with an engine processing all **6,236 records** on-device, replacing API calls with **JSON** parsing.

LANGUAGES & TECHNOLOGIES

Languages: TypeScript, JavaScript, Python, SQL, Java, C++ (C++20), Swift, Kotlin, Bash

Frameworks: React, Next.js, Node.js, tRPC, REST APIs, Drizzle ORM, Tailwind CSS, SwiftUI, UIKit, Firebase

Tools: AWS (Lambda, RDS), Docker, PostgreSQL, Git, GitHub Actions (CI/CD), Linux, Testcontainers, Agile/Scrum
